

## Ideal Port of Call

Located in close proximity to three different countries: Israel by land, Saudi Arabia and Jordan by sea; Taba Heights is the ideal port of call, especially now for seafarers who wish to take a voyage up the Red Sea and cruise the Gulf of Aqaba. Granted an International Tourist Marina license in July 2005, the Taba Heights Marina is the first legitimate port of entry in the region.

Currently, sea trips across the Gulf allow guests an opportunity to visit Jordan and from there Israel by providing access from the Taba Heights Marina to the Royal Yacht Club in Aqaba. From the neighboring marina, day trips to the ancient city of Petra are organized. In the near future, sea trips will be added to the private Tala Bay Resort Marina, Taba Heights' sister resort in Jordan. As soon as Taba Heights' sister project comes online at Tala Bay in Aqaba, additional services will be provided to the marina there as well. This will benefit guests at both resorts as the port is much closer in distance, reducing travel time between Jordan and Taba Heights from 60 to only 30 minutes.

## Facilities
